

Internet, E Safety and Social Media Policy

Date agreed: October 2023

Review Date: Autumn 2028

This policy is part of the School's Statutory Safeguarding Policy. Any issues and concerns with online safety must follow the school's safeguarding and child protection processes.

Contents

1. Introduction and Overview
 - 1.1 Rationale
 - 1.2 Scope
2. Roles and responsibilities
 - 2.1 Responsibilities of Headteacher
 - 2.2 Responsibilities of Designated Safeguarding Lead and Online Safety Lead
 - 2.3 Responsibilities of Governors/Safeguarding Governor (including online safety)
 - 2.4 Responsibilities of all staff
 - 2.5 Responsibilities of PSHE/RSHE Lead
 - 2.6 Responsibilities of Computing Curriculum Lead
 - 2.7 Responsibilities of Subject Leads
 - 2.8 Responsibilities of Network Managers/Technicians
 - 2.9 Responsibilities of the Data Protection Officer
 - 2.10 Responsibilities of LGFL nominated contact
 - 2.11 Responsibilities of teachers
 - 2.12 Responsibilities of volunteers and contractors
 - 2.13 Responsibilities of pupils
 - 2.14 Responsibilities of parents
 - 2.15 Responsibilities of external groups including parents groups
3. Education and Curriculum
 - 3.1 Pupil online safety curriculum
 - 3.2 Staff and governor training
 - 3.3 Parent awareness and training
4. Handling Online Safety Complaints
 - 4.1 Handling a sexting/nude selfie incident
 - 4.2 Upskirting
 - 4.3 Bullying
 - 4.4 Sexual violence and harassment
 - 4.5 Misuse of school technology
 - 4.6 Social Media
5. Data protection and data security
6. Appropriate filtering and monitoring
7. Electronic communications
 - 7.1 Email
8. School website
9. Cloud platform
10. Digital images and video
11. Social Media
 - 11.1 Stepney Park Primary School social media presence
 - 11.2 Staff, pupil's and parent's social media presence

- 12. Device usage
 - 12.1 Personal devices including wearable technology and bring your own device
 - 12.2 Network/internet access on school devices
 - 12.3 Trips/events away from school
 - 12.4 Searching and confiscation
- 13. Review and Monitoring

Appendices:

- A1: Acceptable Use Agreement (Staff, Volunteers and Governors)
- A2: Yr 1+2 Acceptable Use Agreement
- A3: Yr 3+4 Acceptable Use Agreement
- A4: Yr 5+6 Acceptable Use Agreement

1. Introduction and Overview

1.1 Rationale

The purpose of this policy is to:

- Set out expectations for all Stepney Park Primary community members' online behaviour, attitudes and activities and use of digital technology (including when devices are offline)
- Help all stakeholders to recognise that online/digital behaviour standards (including social media activity) must be upheld beyond the confines of the school gates and school day, and regardless of device or platform
- Facilitate the safe, responsible and respectful use of technology to support teaching & learning, increase attainment and prepare children and young people for the risks and opportunities of today's and tomorrow's digital world, to survive and thrive online
- Help school staff working with children to understand their roles and responsibilities to work safely and responsibly with technology and the online world:
 - for the protection and benefit of the children and young people in their care, and
 - for their own protection, minimising misplaced or malicious allegations and to better understand their own standards and practice
 - for the benefit of the school, supporting the school ethos, aims and objectives, and protecting the reputation of the school and profession
- Establish clear structures by which online misdemeanours will be treated, and procedures to follow where there are doubts or concerns (with reference to other school policies such as Behaviour Policy or Anti-Bullying Policy)

The main areas of risk for our school community can be summarised as follows:

Content

- Exposure to inappropriate content
- Lifestyle websites promoting harmful behaviours
- Hate content
- Content validation: how to check authenticity and accuracy of online content

Contact

- Grooming (sexual exploitation, radicalisation etc.)
- Online bullying in all forms
- Social or commercial identity theft, including passwords

Conduct

- Aggressive behaviours (bullying)
- Privacy issues, including disclosure of personal information
- Digital footprint and online reputation
- Health and well-being (amount of time spent online, gambling, body image)
- Sexting
- Copyright (little care or consideration for intellectual property and ownership)

1.2 Scope

This policy applies to all members of the Stepney Park Primary community (including staff, governors, volunteers, contractors, students/pupils, parents/carers, visitors and community users) who have access to our digital technology, networks and systems, whether on-site or remotely, and at any time, or who use technology in their school role.

2. Roles and responsibilities

This school is a community and all members have a duty to behave respectfully online and offline, to use technology for teaching and learning and to prepare for life after school, and to immediately report any concerns or inappropriate behaviour, to protect staff, pupils, families and the reputation of the school. We learn together, make honest mistakes together and support each other in a world that is online and offline at the same time.

2.1 Responsibilities of Headteacher

- Foster a culture of safeguarding where online safety is fully integrated into whole-school safeguarding
- Oversee the activities of the designated safeguarding lead and ensure that the DSL responsibilities listed in the section below are being followed and fully supported
- Ensure that policies and procedures are followed by all staff
- Undertake training in offline and online safeguarding, in accordance with statutory guidance and relevant Local Safeguarding Partnerships
- Liaise with the designated safeguarding lead on all online-safety issues which might arise and receive regular updates on school issues and broader policy and practice information
- Take overall responsibility for data management and information security ensuring the school's provision follows best practice in information handling; work with the DPO, DSL and governors to ensure a GDPR-compliant framework for storing data, but helping to ensure that child protection is always put first and data-protection processes support careful and legal sharing of information
- Ensure the school implements and makes effective use of appropriate ICT systems and services including school-safe filtering and monitoring, protected email systems and that all technology including cloud systems are implemented according to child-safety first principles
- Be responsible for ensuring that all staff receive suitable training to carry out their safeguarding and online safety roles
- Understand and make all staff aware of procedures to be followed in the event of a serious online safeguarding incident
- Ensure suitable risk assessments are undertaken so the curriculum meets needs of pupils, including risk of children being radicalised
- Ensure that there is a system in place to monitor and support staff (e.g. network manager) who carry out internal technical online-safety procedures
- Ensure governors are regularly updated on the nature and effectiveness of the school's arrangements for online safety
- Ensure the school website meets statutory requirements (see appendices for website audit document)

2.2 Responsibilities of Designated Safeguarding Lead and Online Safety Lead

- "The designated safeguarding lead should take lead responsibility for safeguarding and child protection (including online safety)."
- Where the online-safety coordinator is not the named DSL or deputy DSL, ensure there is regular review and open communication between these roles and that the DSL's clear overarching responsibility for online safety is not compromised
- Ensure "An effective approach to online safety [that] empowers a school or college to protect and educate the whole school or college community in their use of technology and establishes mechanisms to identify, intervene in and escalate any incident where appropriate."
- "Liaise with the local authority, Tower Hamlets, and work with other agencies in line with Working together to safeguard children"
- Take day to day responsibility for online safety issues and be aware of the potential for serious child protection concerns

- Work with the headteacher, DPO and governors to ensure a GDPR-compliant framework for storing data, but helping to ensure that child protection is always put first and data-protection processes support careful and legal sharing of information
- Stay up to date with the latest trends in online safety
- Review and update this policy, other online safety documents (e.g. Acceptable Use Policies) and the strategy on which they are based (in harmony with policies for behaviour, safeguarding, Prevent and others) and submit for review to the governors/trustees.
- Receive regular updates in online safety issues and legislation, be aware of local and school trends
- Ensure that online safety education is embedded across the curriculum (e.g. by use of the UKCIS framework 'Education for a Connected World') and beyond, in wider school life
- Promote an awareness and commitment to online safety throughout the school community, with a strong focus on parents, who are often appreciative of school support in this area, but also including hard-to-reach parents
- Liaise with school technical, pastoral, and support staff as appropriate
- Communicate regularly with SLT and the designated safeguarding and online safety governor/committee to discuss current issues (anonymised), review incident logs and filtering/change control logs and discuss how filtering and monitoring
- Ensure all staff are aware of the procedures that need to be followed in the event of an online safety incident, and that these are logged in the same way as any other safeguarding incident
- Oversee and discuss 'appropriate filtering and monitoring' with governors (is it physical or technical?) and ensure staff are aware. We use LGfL filtering, view the appropriate filtering statement [here](#)
- Ensure the DfE guidance on sexual violence and harassment is followed throughout the school and that staff adopt a zero-tolerance approach to this, as well as to bullying
- Facilitate training and advice for all staff:
 - all staff must read KCSIE Part 1 and all those working with children Annex A
 - it would also be advisable for all staff to be aware of Annex C (online safety)
 - cascade knowledge of risks and opportunities throughout the organisation

2.3 Responsibilities of Governors/Safeguarding governor (including online safety)

- Approve this policy and strategy and subsequently review its effectiveness, e.g. by asking the questions in the helpful document from the UK Council for Child Internet Safety (UKCIS) [Online safety in schools and colleges: Questions from the Governing Board](#)
- "Ensure an appropriate **senior member** of staff, from the school or college leadership team, is appointed to the role of DSL with the **lead responsibility** for safeguarding and child protection (including online safety), the appropriate status, authority, time, funding, training, resources and support..."
- Support the school in encouraging parents and the wider community to become engaged in online safety activities
- Have regular strategic reviews with the online-safety co-ordinator / DSL and incorporate online safety into standing discussions of safeguarding at governor meetings
- Where the online-safety coordinator is not the named DSL or deputy DSL, ensure that there is regular review and open communication between these roles and that the DSL's clear overarching responsibility for online safety is not compromised
- Work with the DPO, DSL and headteacher to ensure a GDPR-compliant framework for storing data, but helping to ensure that child protection is always put first and data-protection processes support careful and legal sharing of information
- Check all school staff have read Part 1 of KCSIE; SLT and all working directly with children have read Annex A; check that Annex C on Online Safety reflects practice in your school

- “Ensure that all staff undergo safeguarding and child protection training (including online safety) at induction. The training should be regularly updated in line with advice from the local three safeguarding partners, integrated, aligned and considered as part of the overarching safeguarding approach.” There is further support for this at cpd.lgfl.net
- “Ensure appropriate filters and appropriate monitoring systems are in place, but be careful that ‘overblocking’ does not lead to unreasonable restrictions as to what children can be taught with regard to online teaching and safeguarding”. LGfL’s appropriate filtering submission is [here](#)
- “Ensure that children are taught about safeguarding, including online safety as part of providing a broad and balanced curriculum. Consider a whole school approach to online safety , with a clear policy on the use of mobile technology.”

2.4 Responsibilities of all staff

- Understand that online safety is a core part of safeguarding; as such it is part of everyone’s job – never think that someone else will pick it up
- Know who the Designated Safeguarding Lead (DSL) and Online Safety Lead (OSL) are
- Read Part 1, Annex A and Annex C of Keeping Children Safe in Education (whilst Part 1 is statutory for all staff, Annex A for SLT and those working directly with children, it is good practice for all staff to read all three sections).
- Read and follow this policy in conjunction with the school’s main safeguarding policy
- Record online-safety incidents in the same way as any safeguarding incident and report in accordance with school procedures.
- Understand that safeguarding is often referred to as a jigsaw puzzle – you may have discovered the missing piece so do not keep anything to yourself
- Sign and follow the staff acceptable use policy and code of conduct/handbook
- Notify the DSL/OSL if policy does not reflect practice in your school and follow escalation procedures if concerns are not promptly acted upon
- Identify opportunities to thread online safety through all school activities, both outside the classroom and within the curriculum, supporting curriculum/stage/subject leads, and making the most of unexpected learning opportunities as they arise (which have a unique value for pupils)
- Whenever overseeing the use of technology (devices, the internet, new technology such as augmented reality, etc) in school or setting as homework tasks, encourage sensible use, monitor what pupils/students are doing and consider potential dangers and the age appropriateness of websites (ask your DSL what appropriate filtering and monitoring policies are in place)
- To carefully supervise and guide pupils when engaged in learning activities involving online technology (including, extra-curricular and extended school activities if relevant), supporting them with search skills, critical thinking (e.g. fake news), age appropriate materials and signposting, and legal issues such as copyright and data law
- Prepare and check all online source and resources before using within the classroom
- Encourage pupils/students to follow their acceptable use policy, remind them about it and enforce school sanctions
- Notify the DSL/OSL of new trends and issues before they become a problem
- Take a zero-tolerance approach to bullying and low-level sexual harassment.
- Be aware that you are often most likely to see or overhear online-safety issues (particularly relating to bullying and sexual harassment and violence) in the playground, corridors, toilets and other communal areas outside the classroom – let the DSL/OSL know
- Receive regular updates from the DSL/OSL and have a healthy curiosity for online safety issues – you may find it useful to read at least the headline statistics and conclusions from the LGfL DigiSafe [pupil survey](#) of 40,000 pupils (new themes include ‘self-harm bullying’ and getting undressed on camera)

- Model safe, responsible and professional behaviours in their own use of technology. This includes outside the school hours and site, and on social media, in all aspects upholding the reputation of the school and of the professional reputation of all staff. More guidance on this point can be found in this [Online Reputation](#) guidance for schools.
- At the end of the period of employment/volunteering to return any equipment or devices loaned by the school. This will include leaving PIN numbers, IDs and passwords to allow devices to be reset, or meeting with line manager and technician on the last day to log in and allow a factory reset.

2.5 Responsibility of PSHE/ RSHE Lead

- As listed in the 'all staff' section, plus:
- Embed consent, mental wellbeing, healthy relationships and staying safe online into the PSHE / Relationships education, relationships and sex education (RSE) and health education curriculum. "This will include being taught what positive, healthy and respectful online relationships look like, the effects of their online actions on others and knowing how to recognise and display respectful behaviour online. Throughout these subjects, teachers will address online safety and appropriate behaviour in an age appropriate way that is relevant to their pupils' lives."
- This will complement the computing curriculum, which covers the principles of online safety at all key stages, with progression in the content to reflect the different and escalating risks that pupils face. This includes how to use technology safely, responsibly, respectfully and securely, and where to go for help and support when they have concerns about content or contact on the internet or other online technologies.
- Work closely with the DSL/OSL and all other staff to ensure an understanding of the issues, approaches and messaging within PSHE / RSHE.

2.6 Responsibilities of Computing Curriculum Leader

- As listed in the 'all staff' section, plus:
- Oversee the delivery of the online safety element of the Computing curriculum in accordance with the national curriculum
- Work closely with the DSL/OSL and all other staff to ensure an understanding of the issues, approaches and messaging within Computing
- Collaborate with technical staff and others responsible for ICT use in school to ensure a common and consistent approach, in line with acceptable-use agreements

2.7 Responsibilities of Subject Leads

- As listed in the 'all staff' section, plus:
- Look for opportunities to embed online safety in your subject or aspect, and model positive attitudes and approaches to staff and pupils alike
- Consider how the UKCIS framework Education for a Connected World and Teaching Online Safety in Schools can be applied in your context
- Work closely with the DSL/OSL and all other staff to ensure an understanding of the issues, approaches and messaging within Computing
- Ensure subject specific action plans also have an online-safety element

2.8 Responsibilities of Network Managers / Technicians

- As listed in the 'all staff' section, plus:

- Keep up to date with the school's online safety policy and technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- Work closely with the designated safeguarding lead / online safety lead / data protection officer / LGfL nominated contact to ensure that school systems and networks reflect school policy
- Ensure the above stakeholders understand the consequences of existing services and of any changes to these systems (especially in terms of access to personal and sensitive records / data and to systems such as YouTube mode, web filtering settings, sharing permissions for files on cloud platforms etc
- Support and advise on the implementation of 'appropriate filtering and monitoring' as decided by the DSL and senior leadership team
- Maintain up-to-date documentation of the school's online security and technical procedures
- To report online-safety related issues that come to their attention in line with school policy
- Manage the school's systems, networks and devices, according to a strict password policy, with systems in place for detection of misuse and malicious attack, with adequate protection, encryption and backup for data, including disaster recovery plans, and auditable access controls
- Network managers/technicians at LGfL schools may want to ensure that you take advantage of the following solutions which are part of your package: Sophos Anti-Virus, Sophos Anti-Phish (from Sept 2019), Sophos InterceptX, Sophos Server Advance, Malware Bytes, Egress (from Sept 2019), Meraki Mobile Device Management and CloudReady/NeverWare. These solutions which are part of your package will help protect the network and users on it
- Monitor the use of school technology, online platforms and social media presence and that any misuse/attempted misuse is identified and reported in line with school policy
- Work with the Headteacher to ensure the school website meets statutory DfE requirements (see appendices for website audit document)

2.9 Responsibilities of the Data Protection Officer

- Be aware of references to the relationship between data protection and safeguarding in key Department for Education documents 'Keeping Children Safe in Education' and 'Data protection: a toolkit for schools' (August 2018), especially this quote from the latter document:
 - "GDPR does not prevent, or limit, the sharing of information for the purposes of keeping children safe. Lawful and secure information sharing between schools, Children's Social Care, and other local agencies, is essential for keeping children safe and ensuring they get the support they need. **The Data Protection Act 2018 introduced 'safeguarding' as a reason to be able to process sensitive, personal information, even without consent** (DPA, Part 2,18; Schedule 8, 4) When Designated Safeguarding Leads in schools are considering whether, or not, to share safeguarding information (especially with other agencies) it is considered best practice for them to record who they are sharing that information with and for what reason. If they have taken a decision not to seek consent from the data subject and/or parent/carer that should also be recorded within the safeguarding file. All relevant information can be shared without consent if to gain consent would place a child at risk. Fears about sharing information **must not be allowed** to stand in the way of promoting the welfare and protecting the safety of children."
- Work with the DSL, headteacher and governors to ensure frameworks are in place for the protection of data and of safeguarding information sharing as outlined above.
- Ensure that all access to safeguarding data is limited as appropriate, and also monitored and audited

2.10 Responsibility of LGfL Nominated Contact

- To ensure all LGfL services are managed on behalf of the school in line with school policies, following data handling procedures as relevant
- Work closely with the DSL and DPO to ensure they understand who the nominated contacts are and what they can do / what data access they have, as well as the implications of all existing services and changes to settings that you might request – e.g. for YouTube restricted mode, internet filtering settings, firewall port changes, pupil email settings, and sharing settings for any cloud services such as Microsoft Office 365 and Google G Suite.
- Ensure the DPO is aware of the GDPR information on the relationship between the school and LGfL at gdpr.lgfl.net

2.11 Responsibility of Teachers

- Read, understand, sign and adhere to an acceptable use policy (AUP)
- To embed online safety in the curriculum
- To supervise and guide pupils carefully when engaged in learning activities involving online technology (including, extra-curricular and extended school activities if relevant)
- To ensure that pupils are fully aware of research skills and are fully aware of legal issues relating to electronic content such as copyright laws

2.12 Responsibilities of Volunteers and Contractors

- Read, understand, sign and adhere to an acceptable use policy (AUP)
- Report any concerns, no matter how small, to the designated safety lead / online safety coordinator as named in the AUP
- Maintain an awareness of current online safety issues and guidance
- Model safe, responsible and professional behaviours in their own use of technology

2.13 Responsibilities of pupils

- Read, understand, sign and adhere to the Pupil Acceptable Use Policy annually
- To understand the importance of reporting abuse, misuse or access to inappropriate materials
- To know what action to take if they or someone they know feels worried or vulnerable when using online technology
- To understand the importance of adopting safe behaviours and good online safety practice when using digital technologies out of school and realise that the school's online safety policy covers their actions out of school, including on social media
- Understand the benefits/opportunities and risks/dangers of the online world and know who to talk to at school or outside school if there are problems

2.14 Responsibilities of parents

- Read, sign and promote the school's parental acceptable use policy (AUP) and read the pupil AUP and encourage their children to follow it
- Consult with the school if they have any concerns about their children's and others' use of technology
- Promote positive online safety and model safe, responsible and positive behaviours in their own use of technology, including on social media: not sharing other's images or details without permission and refraining from posting negative, threatening or violent comments about others, including the school staff, volunteers, governors, contractors, pupils or other parents/carers.

2.15 Responsibilities of External groups including Parent groups

- Any external individual/organisation will sign an acceptable use policy prior to using technology or the internet within school
- Support the school in promoting online safety and data protection
- Model safe, responsible, respectful and positive behaviours in their own use of technology, including on social media: not sharing other's images or details without permission and refraining from posting negative, threatening or violent comments about others, including the school staff, volunteers, governors, contractors, pupils or other parents/carers

3. Education and Safety Curriculum

The following subjects have the clearest online safety links (see the relevant role descriptors above for more information):

- PSHEE
- Relationships education, relationships and sex education (RSE) and health
- Computing
- Citizenship

However, as stated in the role descriptors above, it is the role of all staff to identify opportunities to thread online safety through all school activities, both outside the classroom and within the curriculum, supporting curriculum/stage/subject leads, and making the most of unexpected learning opportunities as they arise (which have a unique value for pupils)

Whenever overseeing the use of technology (devices, the internet, new technology such as augmented reality, etc) in school or setting as homework tasks, all staff should encourage sensible use, monitor what pupils/students are doing and consider potential dangers and the age appropriateness of websites

Equally, all staff should carefully supervise and guide pupils when engaged in learning activities involving online technology (including, extra-curricular and extended school activities if relevant), supporting them with search skills, critical thinking (e.g. fake news), age appropriate materials and signposting, and legal issues such as copyright and data law. saferesources.lgfl.net has regularly updated theme-based resources, materials and signposting for teachers and parents.

At Stepney Park Primary, we recognise that online safety and broader digital resilience must be thread throughout the curriculum and that is why we are working to adopt the cross-curricular framework 'Education for a Connected World' from UKCIS (the UK Council for Internet Safety).

Annual reviews of curriculum plans / schemes of work (including for SEND pupils) are used as an opportunity to follow this framework more closely in its key areas of self-image and Identity, Online relationships, Online reputation, Online bullying, Managing online information, Health, Wellbeing and lifestyle, Privacy and security, and Copyright and ownership.

3.1 Pupil online safety curriculum

This school:

- has a clear, progressive online safety education programme as part of the Computing curriculum and PSHE. This covers a range of skills and behaviours appropriate to their age and experience;
- plans online use carefully to ensure that it is age-appropriate and supports the learning objectives for specific curriculum areas;
- will remind students about their responsibilities through the pupil Acceptable Use Agreement(s);

- ensures staff are aware of their responsibility to model safe and responsible behaviour in their own use of technology, e.g. use of passwords, logging-off, use of content, research skills, copyright;
- ensures that staff and pupils understand issues around plagiarism; how to check copyright and also know that they must respect and acknowledge copyright/intellectual property rights;
- ensure pupils only use school-approved systems and publish within appropriately secure / age-appropriate environments.

3.2 Staff and Governor training

This school:

- makes regular training available to staff on online safety issues and the school's online safety education program;
- provides, as part of the induction process, all new staff [including those on university/college placement and work experience] with information and guidance on the Online Safety Policy and the school's Acceptable Use Agreements.

3.3 Parent awareness and training

This school runs a rolling programme of online safety advice, guidance and training for parents.

4. 0 Handling online safety concerns and Incidents:

It is vital that all staff recognise that online-safety is a part of safeguarding (as well as being a curriculum strand of Computing, PSHEE/RSHE and Citizenship).

General concerns must be handled in the same way as any other safeguarding concern; safeguarding is often referred to as a jigsaw puzzle, so all stakeholders should err on the side of talking to the online-safety lead / designated safeguarding lead to contribute to the overall picture or highlight what might not yet be a problem.

Support staff will often have a unique insight and opportunity to find out about issues first in the playground, corridors, toilets and other communal areas outside the classroom (particularly relating to bullying and sexual harassment and violence).

School procedures for dealing with online-safety will be mostly detailed in the following policies (primarily in the first key document):

- Child Protection Policy
- Behaviour and Anti-Bullying Policy
- Acceptable Use Policies
- Prevent Risk Assessment
- Data Protection Policy, agreements and other documentation (e.g. privacy statement and consent forms for data sharing, image use etc)

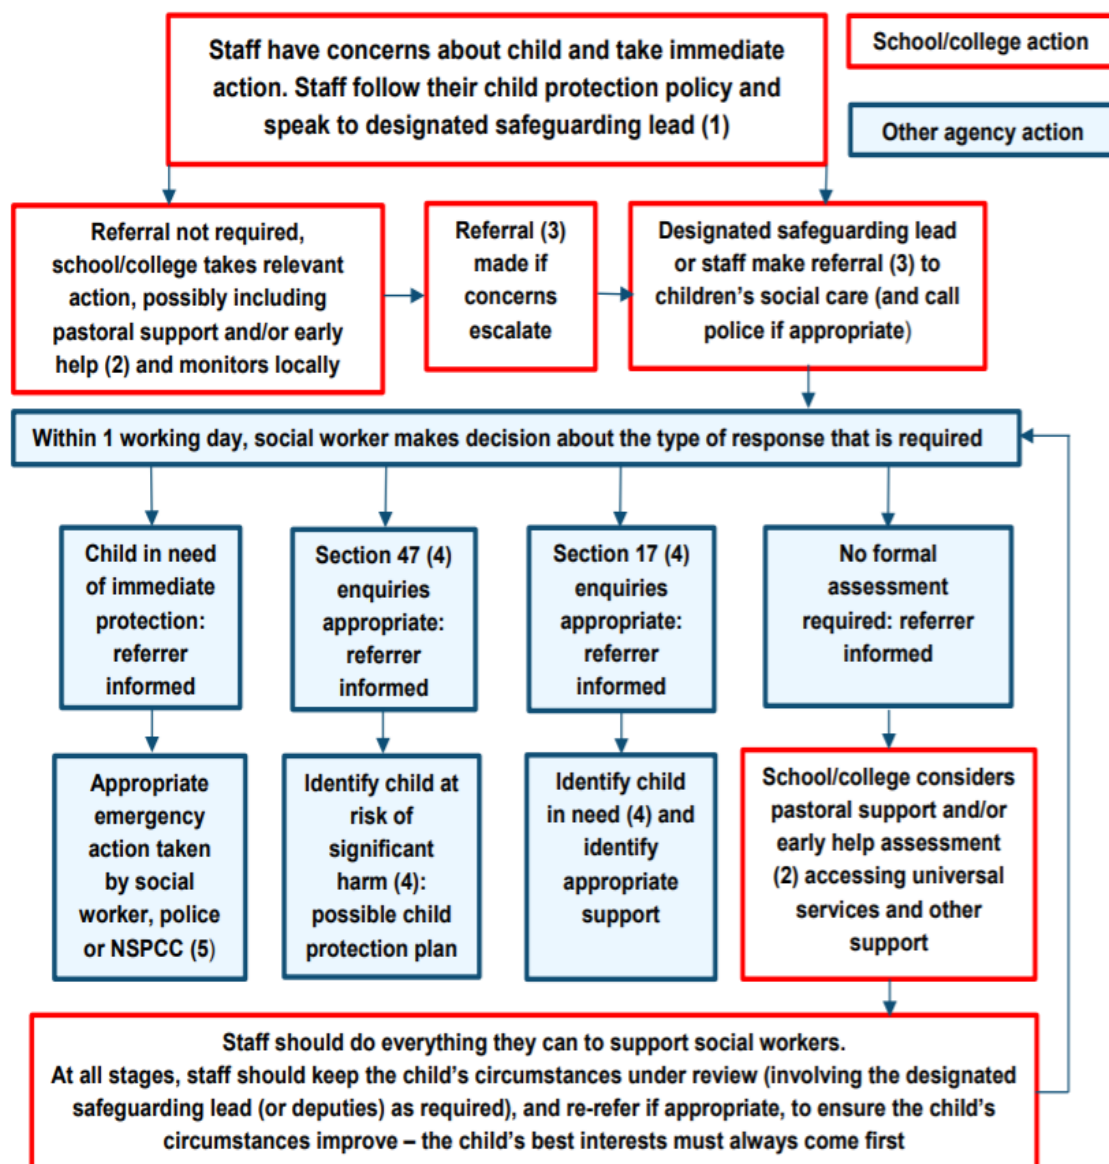

This school commits to take all reasonable precautions to ensure online safety, but recognises that incidents will occur both inside school and outside school (and that those from outside school will continue to impact on pupils when they come into school. All members of the school are encouraged to report issues swiftly to allow us to deal with them quickly and sensitively through the school's escalation processes.

Any suspected online risk or infringement should be reported to the online safety lead / designated safeguarding lead on the same day – where clearly urgent, it will be made by the end of the lesson.

Any concern/allegation about staff misuse is always referred directly to the Headteacher, unless the concern is about the Headteacher in which case the complaint is referred to the Chair of Governors and the LADO (Local Authority's Designated Officer). Staff may also use the NSPCC Whistleblowing Helpline (you may want to display a poster with details of this / other helplines in the staff room – see posters.lgfl.net and reporting.lgfl.net).

The school will actively seek support from other agencies as needed (i.e. the local authority, LGfL, UK Safer Internet Centre's Professionals' Online Safety Helpline, NCA CEOP, Prevent Officer, Police, IWF). We will inform parents/carers of online-safety incidents involving their children, and the Police where staff or pupils engage in or are subject to behaviour which we consider is particularly disturbing or breaks the law (particular procedures are in place for sexting and upskirting; see section below).

As outlined previously, online safety concerns are no different to any other safeguarding concern.

(1) In cases which also involve a concern or an allegation of abuse against a staff member, see Part Four of this guidance.

(2) Early help means providing support as soon as a problem emerges at any point in a child's life. Where a child would benefit from co-ordinated early help, an early help inter-agency assessment should be arranged. Chapter one of [Working Together to Safeguard Children](#) provides detailed guidance on the early help process.

(3) Referrals should follow the process set out in the local threshold document and local protocol for assessment. Chapter one of [Working Together to Safeguard Children](#).

(4) Under the Children Act 1989, local authorities are required to provide services for children in need for the purposes of safeguarding and promoting their welfare. Children in need may be assessed under section 17 of the Children Act 1989. Under section 47 of the Children Act 1989, where a local authority has reasonable cause to suspect that a child is suffering or likely to suffer significant harm, it has a duty to make enquiries to decide whether to take action to safeguard or promote the child's welfare. Full details are in Chapter one of [Working Together to Safeguard Children](#).

(5) This could include applying for an Emergency Protection Order (EPO).

* Point 4 is superseded by the Children's Act 2004.

4.1 Handling a sexting / nude selfie incident:

All schools (regardless of phase) should refer to the UK Council for Internet Safety (UKCIS) guidance on sexting (also referred to as 'youth produced sexual imagery') in schools. NB - where one of the parties is over 18, this is no longer sexting but child sexual abuse.

There is a one-page overview called [Sexting: how to respond to an incident](#) for all staff (not just classroom-based staff) to read, in recognition of the fact that it is mostly someone other than the designated safeguarding lead (DSL) or online safety lead to first become aware of an incident, and it is vital that the correct steps are taken. Staff other than the DSL must not attempt to view, share or delete the image or ask anyone else to do so, but to go straight to the DSL.

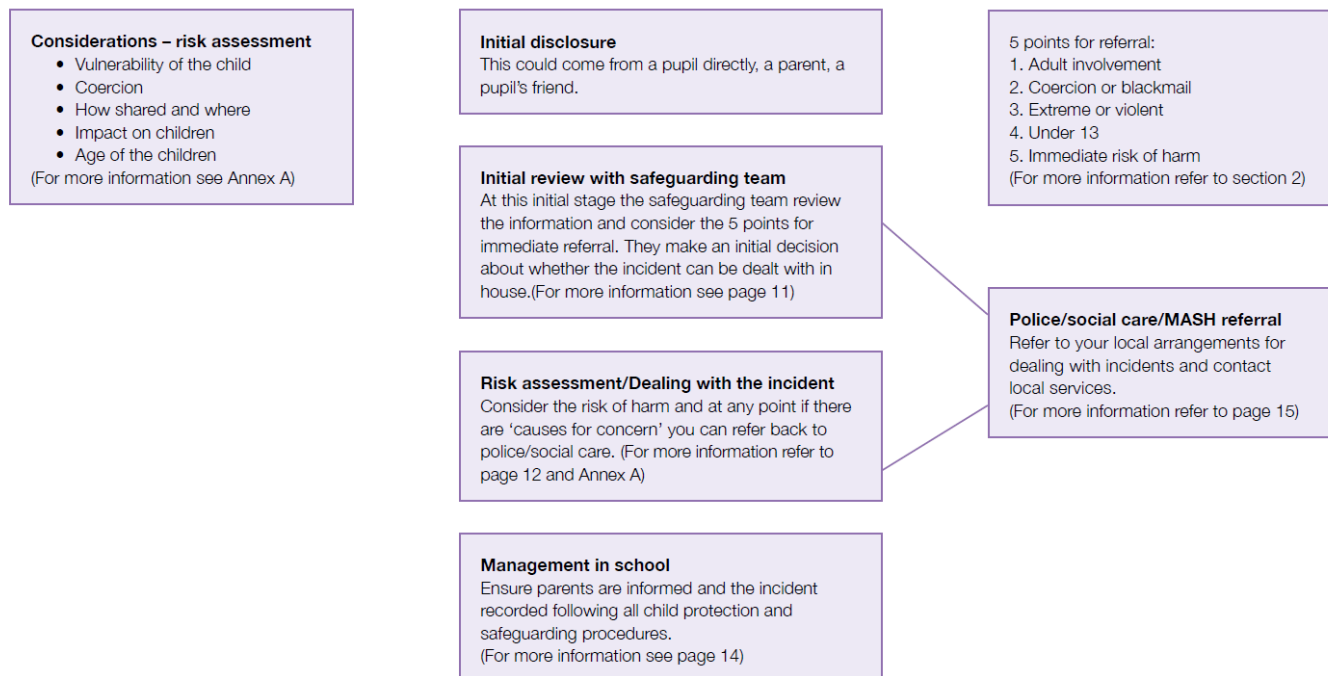

The school DSL will in turn use the full guidance document, [Sexting in Schools and Colleges](#) to decide next steps and whether other agencies need to be involved.

It is important that everyone understands that whilst sexting is illegal, pupils can come and talk to members of staff if they have made a mistake or had a problem in this area.

The documents referenced above and materials to support teaching about sexting can be found at sexting.lgfl.net

Annex G

Flowchart for responding to incidents

4.2 Upskirting

It is important that everyone understands that upskirting (taking a photo of someone under their clothing) is now a criminal offence, as highlighted in Keeping Children Safe in Education and that pupils/students can come and talk to members of staff if they have made a mistake or had a problem in this area.

4.3 Bullying

Online bullying should be treated like any other form of bullying and the school bullying policy should be followed for online bullying, which may also be referred to as cyberbullying.

Materials to support teaching about bullying and useful Department for Education guidance and case studies are at bullying.lgfl.net

4.4 Sexual violence and harassment

DfE guidance on sexual violence and harassment is referenced in Keeping Children Safe in Education and also a document in its own right. It would be useful for all staff to be aware of this guidance to plan the immediate response to a report and confidentiality which is highly relevant for all staff; the case studies section provides a helpful overview of some of the issues which may arise.

Any incident of sexual harassment or violence (online or offline) should be reported to the DSL who will follow the full guidance. Staff should work to foster a zero-tolerance culture. The guidance stresses that schools must take all forms of sexual violence and harassment seriously, explaining how it exists on a continuum and that behaviours incorrectly viewed as 'low level' are treated seriously and not allowed to perpetuate. The document makes specific reference to behaviours such as bra-strap flicking and the careless use of language.

4.5 Misuse of school technology (devices, systems, networks or platforms)

Clear and well communicated rules and procedures are essential to govern pupil and adult use of school networks, connections, internet connectivity and devices, cloud platforms and social media (both when on school site and outside of school).

These are defined in the relevant Acceptable Use Policy as well as in this document, for example in the sections relating to the professional and personal use of school platforms/networks/clouds, devices and other technology, as well as to BYOD (bring your own device) policy.

Where pupils contravene these rules, the school behaviour policy will be applied; where staff contravene these rules, action will be taken as outlined in the staff handbook.

Further to these steps, the school reserves the right to withdraw – temporarily or permanently – any or all access to such technology, or the right to bring devices onto school property.

4.6 Social Media incidents

See the social media section later in this document for rules and expectations of behaviour for children and adults in the Stepney Park Primary community. These are also governed by school Acceptable Use Policies.

Breaches will be dealt with in line with the school behaviour policy (for pupils) or staff handbook (for staff).

Further to this, where an incident relates to an inappropriate, upsetting, violent or abusive social media post by a member of the school community, Stepney Park Primary will request that the post be deleted and will expect this to be actioned promptly.

Where an offending post has been made by a third party, the school may report it to the platform it is hosted on, and may contact the Professionals' Online Safety Helpline (run by the UK Safer Internet Centre) for support or help to accelerate this process.

5. Data protection and data security

GDPR information on the relationship between the school and LGfL can be found at gdpr.lgfl.net; there are useful links and documents to support schools with data protection in the 'Resources for Schools' section of that page.

There are references to the relationship between data protection and safeguarding in key Department for Education documents 'Keeping Children Safe in Education' and 'Data protection: a toolkit for schools' (August 2018), which the DPO and DSL will seek to apply. This quote from the latter document is useful for all staff – note the red and purple highlights:

“GDPR does not prevent, or limit, the sharing of information for the purposes of keeping children safe. Lawful and secure information sharing between schools, Children’s Social Care, and other local agencies, is essential for keeping children safe and ensuring they get the support they need. The Data Protection Act 2018 introduced ‘safeguarding’ as a reason to be able to process sensitive, personal information, even without consent (DPA, Part 2,18; Schedule 8, 4) When Designated Safeguarding Leads in schools are considering whether, or not, to share safeguarding information (especially with other agencies) it is considered best practice for them to record who they are sharing that information with and for what reason. If they have taken a decision not to seek consent from the data subject and/or parent/carer that should also be recorded within the safeguarding file. All relevant information can be shared without consent if to gain consent would place a child at risk. Fears about sharing information must not be allowed to stand in the way of promoting the welfare and protecting the safety of children.”

All pupils, staff, governors, volunteers, contractors and parents are bound by the school’s data protection policy and agreements.

Rigorous controls on the LGfL network, USO sign-on for technical services, firewalls and filtering all support data protection. The following data security products are also used to protect the integrity of data, which in turn supports data protection: USO sign on for LGfL services, Sophos Anti-Virus, Sophos Anti-Phish, Sophos InterceptX, Sophos Server Advance, Malware Bytes, Egress, Meraki Mobile Device Management and CloudReady/NeverWare.

The headteacher, data protection officer and governors work together to ensure a GDPR-compliant framework for storing data, but which ensures that child protection is always put first and data-protection processes support careful and legal sharing of information.

Staff are reminded that all safeguarding data is highly sensitive and should be treated with the strictest confidentiality at all times, and only shared via approved channels to colleagues or agencies with appropriate permissions. The use of USO-FX / Egress to encrypt all non-internal emails is compulsory for sharing pupil data. If this is not possible, the DPO and DSL should be informed in advance.

6. Appropriate filtering and monitoring

Keeping Children Safe in Education obliges schools to “ensure appropriate filters and appropriate monitoring systems are in place [and] not be able to access harmful or inappropriate material [but at the same time] be careful that “over blocking” does not lead to unreasonable restrictions as to what children can be taught with regards to online teaching and safeguarding.”

At this school, the internet connection is provided by LGfL. This means we have a dedicated and secure, schoolsafe connection that is protected with firewalls and multiple layers of security, including a web filtering system called WebScreen 3, which is made specifically to protect children in schools. You can read more about why this system is appropriate on the UK Safer Internet Centre's appropriate filtering submission pages [here](#).

There are three types of appropriate monitoring identified by the Safer Internet Centre. These are:

1. Physical monitoring (adult supervision in the classroom, at all times)
2. Internet and web access
3. Active/Pro-active technology monitoring services

At Stepney Park Primary, we have decided that all options could be appropriate at different times, depending on the circumstances.

7. Electronic communications

Please read this section alongside references to pupil-staff communications in the overall school Safeguarding Policy, and in conjunction with the Data Protection Policy. This section only covers electronic communications, but the same principles of transparency, appropriate conduct and audit trail apply.

7.1 Email

- Pupils at this school use Education Gmail from LGfL for all school emails
- Staff at this school use the StaffMail system and Education Gmail from LGfL for all school and work related emails, including for those to parents and the wider community

These systems are linked to the USO authentication system and are fully auditable, trackable and managed by LGfL on behalf of the school. This is for the mutual protection and privacy of all staff, pupils and parents, as well as to support data protection.

General principles for email use are as follows:

- Communication within our Google platform is the only means of electronic communication to be used between staff and pupils (in both directions).
- Use of a different platform must be approved in advance by the data-protection officer / headteacher in advance. Any unauthorised attempt to use a different system may be a safeguarding concern or disciplinary matter and should be notified to the DSL (if by a child) or to the Headteacher (if by a staff member).
- Email may only be sent using the email systems above. There should be no circumstances where a private email is used; if this happens by mistake, the DSL/Headteacher/DPO (the particular circumstances of the incident will determine whose remit this is) should be informed immediately.
- Staff or pupil personal data should never be sent/shared/stored on email.
 - If data needs to be shared with external agencies, USO-FX and Egress systems are available from LGfL.
 - Internally, staff should use the school network, including when working from home when remote access is available via the Freedom2Roam system or G Suite.
- Pupils are restricted to emailing within the school and cannot email external accounts
- Appropriate behaviour is expected at all times, and the system should not be used to send inappropriate materials or language which is or could be construed as bullying, aggressive, rude, insulting, illegal or otherwise inappropriate, or which (for staff) might bring the school into disrepute or compromise the professionalism of staff

- Pupils and staff are allowed to use the email system for reasonable (not excessive, not during lessons) personal use but should be aware that all use is monitored, their emails may be read and the same rules of appropriate behaviour apply at all times. Emails using inappropriate language, images, malware or to adult sites may be blocked and not arrive at their intended destination.

See also the social media section of this policy.

8. School Website

The school website is a key public-facing information portal for the school community (both existing and prospective stakeholders) with a key reputational value. The Headteacher and Governors have delegated the day-to-day responsibility of updating the content of the website to the Computing Led and Deputyhead. The site is managed by / hosted by LGfL.

The DfE has determined information which must be available on a school website. LGfL has compiled RAG (red-amber-green) audits at safepolicies.lgfl.net to help schools to ensure that requirements are met (see appendices).

Where other staff submit information for the website, they are asked to remember:

- Schools have the same duty as any person or organisation to respect and uphold copyright law – schools have been fined thousands of pounds for copyright breaches. Sources must always be credited and material only used with permission. If in doubt, check with the School Business Manager. There are many open-access libraries of high-quality public-domain images that can be used (e.g. pixabay.com for marketing materials – beware some adult content on this site). Pupils and staff at LGfL schools also have access to licences for music, sound effects, art collection images and other at curriculum.lgfl.net
- Where pupil work, images or videos are published on the website, their identities are protected and full names are not published (remember also not to save images with a filename that includes a pupil's full name).

9. Cloud Platform

This school adheres to the principles of the DfE document '[Cloud computing services: guidance for school leaders, school staff and governing bodies](#)'.

For online safety, basic rules of good password hygiene ("Treat your password like your toothbrush –never share it with anyone!"), expert administration and training can help to keep staff and pupils safe, and to avoid incidents. The data protection officer and network manager analyse and document systems and procedures before they are implemented, and regularly review them.

The following principles apply:

- Privacy statements inform parents and children (13+) when and what sort of data is stored in the cloud
- The DPO approves new cloud systems, what may or may not be stored in them and by whom. This is noted in a DPIA (data-protection impact statement) and parental permission is sought
- Regular training ensures all staff understand sharing functionality and this is audited to ensure that pupil data is not shared by mistake. Open access or widely shared folders are clearly marked as such
- Pupils and staff are only given access and/or sharing rights when they can demonstrate an understanding of what data may be stored and how it can be seen
- Pupil images/videos are only made public with parental permission
- Only school-approved platforms are used by students or staff to store pupil work

- All stakeholders understand the difference between consumer and education products (e.g. a private Gmail account or Google Drive and those belonging to a managed educational domain)

10. Digital images and video

When a pupil joins the school, parents/carers are asked if they give consent for their child's image to be captured in photographs or videos, for what purpose (beyond internal assessment, which does not require express consent) and for how long. Information can be found on the school's admission form

Whenever a photo or video is taken/made, the member of staff taking it will check the latest database before using it for any purpose.

Any pupils shown in public facing materials are never identified with more than first name (and photo file names/tags do not include full names to avoid accidentally sharing them).

All staff are governed by their contract of employment and the school's Acceptable Use Policy, which covers the use of mobile phones/personal equipment for taking pictures of pupils, and where these are stored. At Stepney Park Primary School, members of staff may occasionally use personal phones to capture photos or videos of pupils, but these will be appropriate, linked to school activities, taken without secrecy and not in a one-to-one situation, and always moved to school storage as soon as possible, after which they are deleted from personal devices or cloud services (NB – many phones automatically back up photos).

Photos are stored on the school network in line with the retention schedule of the school Data Protection Policy.

Staff and parents are reminded annually about the importance of not sharing without permission, due to reasons of child protection (e.g. looked-after children often have restrictions for their own protection), data protection, religious or cultural reasons, or simply for reasons of personal privacy. Further detail on this subject and a sample letter to parents for taking photos or videos at school events can be found at parentfilming.lqfl.net

We encourage young people to think about their online reputation and digital footprint, so we should be good adult role models by not oversharing (or providing embarrassment in later life – and it is not for us to judge what is embarrassing or not).

Pupils are taught about how images can be manipulated in their online safety education programme and also taught to consider how to publish for a wide range of audiences which might include governors, parents or younger children

Pupils are advised to be very careful about placing any personal photos on social media. They are taught to understand the need to maintain privacy settings so as not to make public, personal information.

Pupils are taught that they should not post images or videos of others without their permission. We teach them about the risks associated with providing information with images (including the name of the file), that reveals the identity of others and their location. We teach them about the need to keep their data secure and what to do if they / or a friend are subject to bullying or abuse.

11. Social Media

11.1 Stepney Park Primary's SM presence

Stepney Park Primary works on the principle that if we don't manage our social media reputation, someone else will.

Online Reputation Management (ORM) is about understanding and managing our digital footprint (everything that can be seen or read about the school online). Few parents will apply for a school place without first 'googling' the school, and the Ofsted pre-inspection check includes monitoring what is being said online (Mumsnet is a favourite).

Negative coverage almost always causes some level of disruption. Up to half of all cases dealt with by the Professionals Online Safety Helpline (POSH: helpline@saferinternet.org.uk) involve schools' (and staff members') online reputation.

Accordingly, we manage and monitor our social media footprint carefully to know what is being said about the school and to respond to criticism and praise in a fair, responsible manner even though there are no official/ active school social media accounts.

Stepney Park Primary is responsible for checking our Wikipedia and Google reviews. We follow the guidance in the LGfL / Safer Internet Centre online-reputation management document [here](#).

11.2 Staff, pupils' and parents' SM presence

Social media (including here all apps, sites and games that allow sharing and interaction between users) is a fact of modern life, and as a school, we accept that many parents, staff and pupils will use it. However, as stated in the acceptable use policies which all members of the school community sign, we expect everybody to behave in a positive manner, engaging respectfully with the school and each other on social media, in the same way as they would face to face.

This positive behaviour can be summarised as not making any posts which are or could be construed as bullying, aggressive, rude, insulting, illegal or otherwise inappropriate, or which might bring the school or (particularly for staff) teaching profession into disrepute. This applies both to public pages and to private posts, e.g. parent chats, pages or groups.

If parents have a concern about the school, we would urge them to contact us directly and in private to resolve the matter. If an issue cannot be resolved in this way, the school complaints procedure should be followed. Sharing complaints on social media is unlikely to help resolve the matter, but can cause upset to staff, pupils and parents, also undermining staff morale and the reputation of the school (which is important for the pupils we serve).

Many social media platforms have a minimum age of 13, but the school regularly deals with issues arising on social media with pupils/students under the age of 13. We ask parents to respect age ratings on social media platforms wherever possible and not encourage or condone underage use. It is worth noting that following on from the government's Safer Internet Strategy, enforcement and age checking is likely to become more stringent over the coming years.

However, the school has to strike a difficult balance of not encouraging underage use at the same time as needing to acknowledge reality in order to best help our pupils/students to avoid or cope with issues if they arise. Online safety lessons will look at social media and other online behaviour, how to be a good friend online and how to report bullying, misuse, intimidation or abuse. However, children will often learn most from the models of behaviour they see and experience, which will often be from adults.

Parents can best support this (as outlined on p.15) by talking to their children about the apps, sites and games they use (you don't need to know them – ask your child to explain it to you), with whom, for how long, and when (late at night / in bedrooms is not helpful for a good night's sleep and productive teaching and learning at school the next day). You may wish to introduce the [Children's Commission Digital 5 A Day](#).

It is encouraging that 73% of pupils (from the 40,000 who answered that LGfL DigiSafe pupil online safety survey) trust their parents on online safety (although only half talk about it with them more than once a year at the moment).

Email is the official electronic communication channel between parents and the school, and between staff and pupils (see page for full details).

Pupils/students are not allowed* to be 'friends' with or make a friend request** to any staff, governors, volunteers and contractors or otherwise communicate via social media.

Pupils/students are discouraged from 'following' staff, governor, volunteer or contractor public accounts (e.g. following a staff member with a public Instagram account). However, we accept that this can be hard to control (but this highlights the need for staff to remain professional in their private lives). In the reverse situation, however, staff must not follow such public student accounts.

* Exceptions may be made, e.g. for pre-existing family links, but these must be approved by the Headteacher, and should be declared upon entry of the pupil or staff member to the school).

** Any attempt to do so may be a safeguarding concern or disciplinary matter and should be notified to the DSL (if by a child) or to the Headteacher (if by a staff member).

Staff are reminded that they are obliged not to bring the school or profession into disrepute and the easiest way to avoid this is to have the strictest privacy settings and avoid inappropriate sharing and oversharing online. They should never discuss the school or its stakeholders on social media and be careful that their personal opinions might not be attributed to the school, trust or local authority, bringing the school into disrepute.

The serious consequences of inappropriate behaviour on social media are underlined by the fact that there have been 200 Prohibition Orders issued to teachers over the past four years related to the misuse of technology/social media.

All members of the school community are reminded that particularly in the context of social media, it is important to comply with the school policy on Digital Images and Video (see page) and permission is sought before uploading photographs, videos or any other information about other people.

12. Device usage

Please read the following in conjunction with acceptable use policies and the following sections of this document which all impact upon device usage: copyright, data protection, social media, misuse of technology, and digital images and video.

12.1 Personal devices including wearable technology and bring your own device (BYOD)

- Pupils/students are not allowed to bring mobile phones. The School accepts that there may be particular circumstances in which a parent wishes their child to have a mobile phone for their own safety. If a student breaches the school policy, then the device will be confiscated and will be held in

a secure place in the school office. Mobile devices will be released to parents or carers in accordance with the school policy.

- All staff who work directly with children should leave their mobile phones on silent and only use them in private staff areas during school hours. Child/staff data should never be downloaded onto a private phone. If a staff member is expecting an important personal call when teaching or otherwise on duty, they may leave their phone with the school office to answer on their behalf or ask for the message to be left with the school office.
- Volunteers, contractors, governors should leave their phones in their pockets and turned off. Under no circumstances should they be used in the presence of children or to take photographs or videos. If this is required (e.g. for contractors to take photos of equipment or buildings), permission of the headteacher should be sought (the headteacher may choose to delegate this) and this should be done in the presence of a member staff.
- Parents are asked to leave their phones in their pockets and turned off when they are on site. They should ask permission before taking any photos, e.g. of displays in corridors or classrooms, and avoid capturing other children. When at school events, please refer to the Digital images and video section of this document on page. [parentfilming.lgfl.net may provide further useful guidance]. Parents are asked not to call pupils on their mobile phones during the school day; urgent messages can be passed via the school office.

12.2 Network/ internet access on school devices

- All staff who work directly with children should leave their mobile phones on silent and only use them in private staff areas during school hours. See also the Digital images and video section on page and Data protection and data security section on page . Child/staff data should never be downloaded onto a private phone.
- Volunteers, contractors, governors can access the guest wireless network but have no access to networked files/drives, subject to the acceptable use policy. All internet traffic is monitored.
- Parents can access the guest wireless network but have no access to networked files/drives, subject to the acceptable use policy. All internet traffic is monitored.

12.3 Trips / events away from school

For school trips/events away from school, teachers will be issued a school duty phone and this number should be used for any authorised or emergency communications with pupils/students and parents. Any deviation from this policy (e.g. by mistake or because the school phone will not work) will be notified immediately to the headteacher. Teachers using their personal phone in an emergency will ensure that the number is hidden to avoid a parent or student accessing a teacher's private phone number.

12.4 Searching and confiscation

In line with the DfE guidance 'Searching, screening and confiscation: advice for schools', the Headteacher and staff authorised by them have a statutory power to search pupils/property on school premises. This includes the content of mobile phones and other devices, for example as a result of a reasonable suspicion that a device contains illegal or undesirable material, including but not exclusive to sexual images, pornography, violence or bullying.

Full details of the school's search procedures are available in the school's [Behaviour Policy](#).

13. Reviewing and Monitoring Online Safety

The Internet, E Safety and Social Media Policy is referenced within other school policies (e.g. Child Protection policy, Behaviour and Anti-Bullying policy, Teaching and Learning policy).

- The Internet, E Safety and Social Media Policy will be reviewed regularly or when any significant changes occur with regard to the technologies in use within the school
- There is widespread ownership of the policy and it has been agreed by the SLT and approved by Governors. All amendments to the school online safety policy will be disseminated to all members of staff and pupils.

Appendix 1: Acceptable Use Agreement: Staff, Volunteers, Governors & Contractors

Acceptable Use Agreement: Staff, Volunteers, Governors & Contractors

Covers use of all digital technologies while in school: i.e. **email, internet, intranet, network resources, learning platform, software, communication tools, social networking tools, school website, apps and other relevant digital systems provided by the school**

Also covers school equipment when used outside of school, use of online systems provided by the school or school umbrella body when accessed from outside school, and posts on social media made from outside school premises/hours which reference the school or which might bring your professional status into disrepute.

Stepney Park Primary School regularly reviews and updates all AUP documents to ensure that they are consistent with the school Online Safety Policy.

These rules will help to keep everyone safe and to be fair to others. Please note that school systems and users are protected and monitored by security and filtering services to provide safe access to digital technologies. Your behaviour online when in school and on all school devices whether in school or otherwise may therefore be subject to monitoring.

- I will only use the school's digital technology resources and systems for professional purposes or for uses deemed 'reasonable' by the Head and Governing Body.
- I will not reveal my password(s) to anyone.
- I will follow 'good practice' advice in the creation and use of my password and change my passwords regularly. If my password is compromised, I will ensure I change it. I will not use anyone else's password if they reveal it to me and will advise them to change it.
- I will not allow unauthorised individuals to access email / internet / intranet / network / social networks / mobile apps / or any other system I have access to via the school or school umbrella.
- I will not share any data externally from within emails / internet / intranet / network / mobile apps / or any other system I have access to via the school
- I will ensure all documents, data, etc. are printed, saved, accessed and deleted / shredded in accordance with the school's network and data security protocols.
- I will not engage in any online activity that may compromise my professional responsibilities.
- I will only use the approved email system(s) for any school business. This is currently GMail for Education and LGfL Staffmail.
- I am aware my school email account and the contents belongs to the school and should there be a need access may be provided a third party to support these schools compliance with GDPR.
- I agree I will not forward any emails with either student or staff data in to my personal email account
- I will only use the approved method/s of communicating with pupils or parents/carers: email system (LondonMail), online cloud storage service (Google), and only communicate with them in a professional manner and on appropriate school business.
- I will not support or promote extremist organisations, messages or individuals.
- I will not give a voice or opportunity to extremist visitors with extremist views.
- I will not browse, download or send material that is considered offensive or of an extremist nature by the school.
- I will report any accidental access to, or receipt of inappropriate materials, or filtering breach or equipment failure to the appropriate line manager / school named contact [*Edith Philipsen*].
- I will not download any software or resources from the internet that can compromise the network or might allow me to bypass the filtering and security system or are not adequately licensed.
- I will check copyright and not publish or distribute any work including images, music and videos, that is protected by copyright without seeking the author's permission.
- I will not connect any device (including USB flash drive), to the network that does not have up-to-date anti-virus software, and I will keep any 'loaned' equipment up-to-date, using the school's *recommended anti-virus and other ICT 'defence' systems*.
- I will not use personal digital cameras or camera phones or digital devices for taking, editing and transferring images or videos of pupils or staff and will not store any such images or videos at home or on any personal devices.
- I will follow the school's policy on use of mobile phones / devices at school and will only use during break times.
- I will only use school approved equipment for any storage, editing or transfer of digital images / videos and ensure I only save photographs and videos of children and staff on the appropriate system.
- I will only take or publish images of staff and students with their permission and in accordance with the school's policy on the use of digital / video images. Images published on the school website, online learning environment etc. will not identify students by name, or other personal information.
- I will use the school's online cloud storage service in accordance with school protocols.

- I will ensure that any private social networking sites / blogs, etc. that I create or actively contribute to are not confused with my professional role.
- I will ensure, where used, I know how to use any social networking sites / tools securely, so as not to compromise my professional role.
- I agree and accept that any computer, digital device or laptop loaned to me by the school, is provided solely to support my professional responsibilities and that I will notify the school of any “significant personal use” as defined by HM Revenue & Customs.
- I will only access school resources remotely (such as from home) using LGfL-Freedom2Roam / Google and follow e-security protocols to interact with them.
- I will ensure any confidential data that I wish to transport from one location to another is protected by encryption and that I follow school data security protocols when using any such data at any location.
- I understand that data protection policy requires that any information seen by me with regard to staff or pupil information, held within the school’s information management system, will be kept private and confidential, EXCEPT when it is deemed necessary that I am required by law to disclose such information to an appropriate authority.
- I am aware that under the provisions of the GDPR (General Data Protection Regulation), my school and I have extended responsibilities regarding the creation, use, storage and deletion of data, and I will not store any pupil data that is not in line with the school’s data policy and adequately protected. The school’s data protection officer must be aware of all data storage.
- I understand it is my duty to support a whole-school safeguarding approach and will report any behaviour of other staff or pupils, which I believe may be inappropriate or concerning in any way, to the relevant Senior Member of Staff / Designated Safeguarding Lead [Edith Philipsen].
- I understand that all internet and network traffic / usage can be logged and this information can be made available *to the Head / Safeguarding Lead* on their request.
- I understand that internet encrypted content (via the https protocol), may be scanned for security and/or safeguarding purposes.
- I understand that I have a responsibility to uphold the standing of the teaching profession and of the school, and that my digital behaviour can influence this.
- *Staff that have a teaching role only:* I will embed the school’s online safety / digital literacy / counter extremism curriculum into my teaching.

Acceptable Use Agreement: Staff, Volunteers, Governors & Contractors

User Declaration (to be signed for on the Child Protection, Health and Safety and Staff Conduct Annual Agreement)

I agree to abide by all the points above.

I understand that I have a responsibility for my own and others’ e-safeguarding and I undertake to be a ‘safe and responsible digital technologies user’.

I understand that it is my responsibility to ensure that I remain up-to-date and read and understand the school’s most recent online safety / safeguarding policies.

I understand that failure to comply with this agreement could lead to disciplinary action.

Date: _____

Appendix 2: Yr 1+2 : Pupil Online Acceptable Use Agreement

Milestone 1: Pupil Online Acceptable Use Agreement

I keep **SAFE online** because ...

I **CHECK** with a trusted adult if it is OK to use a website / game / app.

I **ASK** for help if I'm stuck or not sure.

I **THINK** before I click on things.

I **KNOW** online people are really strangers.

I am **RESPONSIBLE** so I never share private information.

I am **KIND** and polite online to everyone.

I **TELL** a trusted adult if I am upset, worried or scared about anything.

My trusted adults are:

Signed: _____ Date: _____

Appendix 3: Yr 3+4 Pupil Online Acceptable Use Agreement

Milestone 2 Pupil Online Acceptable Use Agreement

This agreement will help keep me safe and helps me to be fair to others

- ***I am an online digital learner*** – I use the school's internet and devices for schoolwork, homework and other activities to learn and have fun. I only use sites, games and apps that my trusted adults say I can.
- ***I am a secure online learner*** – I keep my passwords to myself and reset them if anyone finds them out. Friends don't share passwords! I know anything I do can be shared and might stay online forever (even if I delete it).
- ***I am careful online*** – I think before I click on links and only download when I know it is safe or has been agreed by trusted adults. I understand that some people might not be who they say they are, so I should be very careful when someone wants to be my friend.

- ***I say no online if I need to*** – if I get asked something that makes me worried or upset or just confused, I say no, stop chatting and tell a trusted adult.
- ***I am considerate online*** – I do not join in with bullying or sharing inappropriate material.
- ***I am kind and respectful online*** – I do not post, make or share unkind, hurtful or rude messages/comments and tell my trusted adults if I see these.
- ***I am responsible online*** – I know that apps, sites and games have rules on how to behave, and some have age restrictions. I follow the rules, block bullies and report bad behaviour. I keep others safe by talking to my trusted adults if a friend or person I know is being bullied or harassed or is worried or upset by things they read, watch or hear.
- ***I communicate and collaborate online*** – with people I know and have met in real life or that a trusted adult knows about.
- ***I am SMART online*** – I understand that unless I have met people in real life, I can't be sure who someone is online, so if I want to meet someone for the first time, I must always ask a trusted adult for advice.
- ***I am creative online*** – I don't just spend time online to look at things from other people; I get creative to learn and make things! I only edit or delete my own digital work and only use other people's with their permission or where it is copyright free or has a Creative Commons licence.
- ***I am a researcher online*** – I use safe search tools approved by my trusted adults. I understand that not everything online can be believed, but I know how to check things and know to 'double check' information I find online.
- ***I don't do live video (livestreams) on my own*** - and always check if it is allowed. I check with a trusted adult before I video chat with anybody for the first time.
- ***I tell my parents/carers what I do online*** - they might not know the app, site or game, but they can still help me when things go wrong, and they want to know what I'm doing.

I have read and understood this agreement. I agree to the above.

My trusted adults are:

Signed: _____ Date: _____

Appendix 4: Yr 5+6 Pupil Online Acceptable Use Agreement

Milestone 3 Pupil Online Acceptable Use Agreement

This agreement will help keep me safe and helps me to be fair to others

- ***I am an online digital learner*** – I use the school's internet and devices for schoolwork, homework and other activities to learn and have fun. I only use sites, games and apps that my trusted adults say I can.
- ***I am a secure online learner*** – I keep my passwords to myself and reset them if anyone finds them out. I know anything I do can be shared and might stay online forever (even if I delete it).
- ***I am careful online*** – I think before I click on links and only download when I know it is safe or has been agreed by trusted adults. I understand that some people might not be who they say they are, so I should be very careful when someone wants to be my friend.
- ***I am private online*** – I only give out private information if a trusted adult says it's okay. This might be my home address, phone number or other personal information that could be used to identify me or my family and friends.
- ***I say no online if I need to*** – if I get asked something that makes me worried or upset or just confused, I say no, stop chatting and tell a trusted adult.
- ***I am a rule-follower online*** – I know that some websites and social networks have age restrictions and I respect this. I follow rules, block bullies and report bad behaviour. I only visit sites, games and apps that my trusted adults have agreed to.

- ***I am considerate online*** – I do not join in with bullying or sharing inappropriate material.
- ***I am respectful online*** – I do not post, make or share unkind, hurtful or rude messages/comments and tell my trusted adults if I see these.
- ***I am part of a community*** – I do not make fun of anyone or exclude them because they are different to me. If I see anyone doing this, I tell a trusted adult.
- ***I am responsible online*** – I keep others safe by talking to my trusted adults if a friend or person I know is being bullied or harassed or is worried or upset by things they read, watch or hear.
- ***I don't do public live streams on my own*** – and only go on a video chat if my trusted adult knows I am doing it and who with.
- ***I communicate and collaborate online*** – with people I know and have met in real life or that a trusted adult knows about.
- ***I am SMART online*** – I understand that unless I have met people in real life, I can't be sure who someone is online, so if I want to meet someone for the first time, I must always ask a trusted adult for advice.
- ***I keep my body to myself online*** – I never get changed or show what's under my clothes in front of a camera. I remember my body is mine and no-one should tell me what to do with it; I don't send any photos or videos without checking with a trusted adult.
- ***I am creative online*** – I don't just spend time online to look at things from other people; I get creative to learn and make things! I only edit or delete my own digital work and only use other people's with their permission or where it is copyright free or has a Creative Commons licence.
- ***I am a researcher online*** – I use safer search tools approved by my trusted adults. I understand that not everything online can be believed, but I know how to check things and know to 'double check' information I find online.
- ***I tell my parents/carers what I do online*** – they might not know the app, site or game, but they can still help me when things go wrong, and they want to know what I'm doing.

I have read and understood this agreement. I know who my trusted adults are and agree to the above.

EYFS and SEND Pupil Online Acceptable Use Agreement

What I Must do to Keep Safe Online and With Devices

Online means anything connected to the internet. Most devices and

apps are connected to the internet.

Devices are technology like: computers, laptops, games consoles,

tablets and smart phones.

I will only use the devices I am allowed to use.

I will ask a trusted adult before I use new websites, games or apps.

I will ask for help if I'm stuck or not sure.

I will be kind and polite to everyone online.

I will tell a trusted adult if I feel worried, scared or nervous when I am using a device.

I will tell a trusted adult if I feel sad, angry or embarrassed when I am using a device.

I will tell a trusted adult if I feel bad or unsafe when I am using a device.

I know people online sometimes tell lies.

They might lie about who they are or where they live.

I never have to keep secrets from my trusted adults.

I will not change clothes or undress in front of a webcam.

I will always ask a trusted adult before telling anyone my private

information or location.

I know that anything I do or say online might stay there forever.

It can be given to my family, my friends or strangers.

This could make me feel sad or embarrassed.

My trusted adults are _____ at school

My trusted adults are _____ at home

My name is _____

Appendix 6: Parents/ Carers Online Acceptable Use Agreement

Parents / Carers Online Acceptable Use Agreement

What is an AUP?

We ask all children, young people and adults involved in the life of Stepney Park Primary School to sign an Acceptable Use Policy (AUP), which is a document that outlines how we expect them to behave when they are online, and/or using school networks, connections, internet connectivity and devices, cloud platforms and social media (both when on school site and outside of school).

Your child has also signed an AUP which is kept in their classroom.

Why do we need an AUP?

These rules have been written to help keep everyone safe and happy when they are online or using technology. Sometimes things go wrong and people can get upset, but these rules should help us avoid it when possible, and be fair to everybody.

School systems and users are protected and monitored by security and filtering services to provide safe access to digital technologies. This means anything on a school device or using school networks/platforms/internet may be viewed by one of the staff members who are here to keep your children safe.

We tell your children that they should not behave any differently when they are out of school or using their own device or home network. What we tell pupils about behaviour and respect applies to all members of the school community:

“Treat yourself and others with respect at all times; treat people in the same way when you are online or on a device as you would face to face.”

Where can I find out more?

You can read Stepney Park Primary’s full Online Safety Policy on [www.\[www.stepneypark.towerhamlets.sch.uk\]\(http://www.stepneypark.towerhamlets.sch.uk\)](http://www.stepneypark.towerhamlets.sch.uk) for more detail on our approach to online safety and links to other relevant policies (e.g. Safeguarding Policy, Behaviour Policy, etc). If you have any questions about this AUP or our approach to online safety, please speak to the Computing Lead

What am I agreeing to?

1. I understand that Stepney Park Primary School uses technology as part of the daily life of the school when it is appropriate to support teaching & learning and the smooth running of the school, and to help prepare the children and young people in our care for their future lives.
2. I understand that the school takes every reasonable precaution to keep pupils safe and to prevent pupils from accessing inappropriate materials, including behaviour policies and agreements, physical and technical monitoring, education and support and web filtering. However, the school cannot be held responsible for the nature and content of materials accessed through the internet and mobile technologies, which can sometimes be upsetting.
3. I understand that internet and device use in school, and use of school-owned devices, networks and cloud platforms out of school may be subject to filtering and monitoring. These should be used in the same manner as when in school.
4. I will promote positive online safety and model safe, responsible and positive behaviours in my own use of technology, including on social media: not sharing other's images or details without permission and refraining from posting negative, threatening or violent comments about others, including the school staff, volunteers, governors, contractors, pupils or other parents/carers.
5. The impact of social media use is often felt strongly in schools, which is why we expect certain behaviours from pupils when using social media. I will support the school's social media policy and not encourage my child to join any platform where they are below the minimum age.
6. I will follow the school's digital images and video policy, which outlines when I can capture and/or share images/videos. I will not share images of other people's children on social media and understand that there may be cultural or legal reasons why this would be inappropriate or even dangerous. The school sometimes uses images/video of my child for internal purposes such as recording attainment, my permission was recorded on the school's admission form,
7. I understand that for my child to grow up safe online, s/he will need positive input from school and home, so I will talk to my child about online safety (NB: the recent LGfL DigiSafe survey of 40,000 primary and secondary pupils found that 73% of pupils trust their parents on online safety, but only half talk about it with them more than once a year). Understanding human behaviour is more helpful than knowing how a particular app, site or game works.
8. I understand that whilst home networks are much less secure than school ones, I can apply child safety settings to my home internet. Internet Matters provides guides to help parents do this easily for all the main internet service providers in the UK.
9. I understand that it can be hard to stop using technology sometimes, and I will talk about this to my children, and refer to the principles of the Digital 5 A Day: childrenscommissioner.gov.uk/our-work/digital/5-a-day/
10. I understand and support the commitments made by my child in the Acceptable Use Policy (AUP) which s/he has signed, and which can be seen here in the classroom and I understand that s/he will be subject to sanctions if s/he does not follow these rules.
11. I can find out more about online safety at Stepney Park Primary School by reading the full Online Safety Policy on the website and can talk to the classteacher if I have any concerns about my child/ren's use of technology, or about that of others in the community, or if I have questions about online safety or technology use in school.
